GAY STORY OPENS MONDAY AT CURRAN

Lee Shippey Is Author Of Tale of "Great American Family"

Lucky indeed is the author whose first novel wins international recognition as one of unusual quality, and whose second adds to his standing, both at home and abroad.

Lee Shippey, author of "The Great American Family" which opens a limited engagement at the Curran theater on Monday evening, August 14, with bargain matinees on Wednesday and Saturday, added to his fame in such countries as Great Britain, South Africa, Egypt, Australia and New Zealand with his first novel, "Where Nothing Ever Happens." His second book, "The Girl Who Wanted Experience," according to the publishers has done even better.

If scintillating wit, light comedy, ludicrous situations provoking hilarious laughter appeal to you, then you'll want to be sure to see the typical American kids in "The Great American Family." Before being adapted for the stage by Robert Frayne Chapin and Charley King, the book sold 50,000 copies and is still doing nicely.

Young or old, there is a thrill for every family person in "The Great American Family." Youngsters will giggle and poke each other in the ribs, as the younger members of the Seymour family plan pranks or get into trouble. Older members of the audience will swallow hard as the Sey-

D. C. and Colma Plan for Fiesta

George Lagomarsino, Colma, member of the San Mateo county fair association, announced today that the northern part of the county is well represented in direction of this year's Fiesta-Rodeo to be held September 21 to 24 at Bay Meadows.

Last year's displays from this part of the county proved to be among the outstanding attractions, and with added representation in the ninth annual Fiesta, a considerable share of the $18,560 in prize money should go to local growers.

North county representatives on the directorate of the fair association are: Ralph McArthur, Daly City; Charles Ledworth, South San Francisco; Floyd Tower, San Bruno and George Davis, Millbrae.

Victor Holmes of San Bruno, James Wilson of Millbrae and four Colma men, Hayden Emerson, Don Lucas, Allin McCahon and John Newton are other active members on the executive committee of the floral division.

Active in the agricultural division are: P. Cafferata, Angelo Revere and Rudolph Siri, all of Colma.

Judge Enjoys Pleasant Hobby

Judge Clay

For the past fourteen years, Judge Wade H. Clay, 65 Guadalupe street, has enjoyed one of the pleasantest hobbies a man can have—that of cultivating a choice variety of dahlias.

Friends and neighbors pausing a moment to enjoy the brilliant colors of the huge boquet see the Judge working in his garden from early Spring to late Fall, usually in the early morning hours. His present collection of dahlias is the result of many years of such work.

As the picture above shows, some of Judge Clay's dahlias grow more than head-high. For beauty, size or variety of color, the blooms would be hard to match on the entire Peninsula.

If approached on the subject Judge Clay will wax enthusiastic over the health and pleasure to be found in his hobby. "Try it some bright morning and see," is usually his advice.

Judge Clay is well-known in Daly City. He is judge of the city court and justice of the peace for the first township.

ICE FOLLIES CONTINUE RECORD RUN

Dazzling Revue Attracts Thousands To Winterland

Ice Follies of 1939, premiere ice carnival of the world, appeared before customer No. 250,000 last week in San Francisco and continued on its way to set an all-time entertainment record here.

The dazzling all-skating musical revue came to the Bay area for a three-weeks run but the thirteenth week ends Thursday, August 10, and the show's run was extended again, with the attendance total still mounting.

Poetic motion, speed and daring are features of the spectacular production, in which all performers are skaters. Entire action of the revue is on the ice of San Francisco's beautiful new Winterland at Post and Steiner streets.

The color and the beauty of winter in the East and in Europe, far from the scenes familiar to Californians, have been transported to the new local ice rink for the Ice Follies.

Extension of the current local run of the Ice Follies again brought out announcement of a matinee—this time a Saturday afternoon performance set for August 19, in addition to one scheduled for August 12.

State Highway Dept. Makes Appropriation

The State Highway department has officially approved Daly City's application for a $2,000 appropriation out of the quarter cent gasoline tax fund for the repair of major streets, it was learned today from City Engineer Julius F. Castelan.

The money will be used for the repairing of cracks in major streets here.

Schedules to S. F. Will Be Under Way Within Next Sixty Days

Within sixty days Daly City municipal busses will be operating between this city and the west terminal of Twin Peaks tunnel to assure faster transportation to down town San Francisco, according to an announcement made today by Mayor Paul G. Selmi. His statement followed a bulletin from Charles F. Skelly, secretary of the San Francisco Police Commission, advising that a permit had been granted to operate Daly City busses within San Francisco city limits along the proposed Junipero Serra route.

This "best news of the year," a start on the solution to Daly City's transportation problem, came on the heels of several months persistent effort on the part of Mayor Selmi, other progressive city officials and civic leaders.

Advantages

"Starting of bus schedules," declared Mayor Selmi, "will assure faster and more convenient service for our down town commuters, will result in more rapid development of our community, and will enhance the values of our real estate.

"While this project may not conveniently serve some of the people, the proposed route was thought out with great care as the first possible route to inaugurate bus transportation. Later, as the project shows definite results and patronage warrants expansion of the service, new routes will be developed for improved and faster service for all our citizens."

The first proposed route will serve all sections of Daly City and will proceed along Junipero Serra boulevard to Ocean avenue and connect with the Twin Peaks tunnel cars to down town San Francisco.

Daly City council has already called for bids for transport busses. Best bid was submitted by National Auto company. Just as rapidly as minor legal details are cleared away, regular bus schedules will start, according to Mayor Selmi.

Hats Off To the Mayor

Occasionally somebody thinks to say something nice about a public official, but generally speaking the "squawkers" demand the floor.

May The Record make one of those occasional commentaries: It has been the pleasure of this newspaper to follow rather closely for several months the activities of Mayor Selmi in his effort to find a solution to Daly City's vexing transportation problem and work out a plan to thwart antagonistic claims that a commuter can get from down town San Francisco to Berkeley hills or even to Redwood City faster than he can travel to Daly City.

The mayor has spent his time and money to attend meetings, make trips, study surveys, interview transportation authorities (incidentally take abuse and ridicule from opposing interests) in an effort to improve local transportation.

Granting of a permit to operate in San Francisco seems to clear away the last barrier between his proposed bus plan and actually getting the busses to making schedule runs.

Local surveys indicate that the busses will be an instant success. But as in any new public transportation venture there may be route, time, and financial problems to be worked out. The Record, as all other progressive interests, hopes that the bus system will be a solution to the local transportation tangle.

In closing, hats off to the mayor, may his plan be a success!

Blue Merle Collie Wins

To Kalon Lucky Lady, new Champion of Record in the American Kennel Club of America, owned by Mrs. Nydia Smeltzer, wife of the manager of the Daly City theatre.

Shown above is To Kalon Lucky Lady, Blue Merle Collie, owned by Mrs. Nydia Smeltzer, wife of Bill Smeltzer, manager of the Daly City theatre.

Winning the final points needed to complete her championship, To Kalon Lucky Lady went Winners Bitch and Best Opposite Sex at the San Mateo Kennel club show, July 23, at Bay Meadows. She is now a Champion of Record in the American Kennel Club of America.

An outstanding example of her breed, To Kalon Lucky Lady was purchased when only four months old from To Kalon Kennels in New York. She made her championship in just four shows, San Francisco, Oakland, Los Angeles and San Mateo, a remarkable record.

Mrs. Smeltzer has the signal honor of finishing her second champion in less than two years.

Daly City Library Installs New Desk

Daly City took another step forward last week with the installation of a modern new library desk at the Daly City library.

Made of light oak, beautifully polished, the desk is especially designed for library use, with adjustable shelves, a huge map compartment and card files with a roll-type top. Other drawers and compartments are also designed to make the handling of library work quick and efficient.

The desk fulfills a long-felt need and will aid in the rapid handling of patrons' needs, according to Henry Sundermann, chairman of the library committee, and Mrs. Jean O'Rourk, local librarian.

Home-Town Talent Wanted

Daly City gets out its greasepaint this week as Enid F. Tandy, local Recreation director, announces the formation of a Little Theatre group here under the auspices of the Recreation department. Marie Burton, San Francisco, whose last production has just completed a successful run on Treasure Island, will act as general director.

Any adult interested in promoting such a movement is urged to get in touch immediately with the Recreation office, 101 Parkview avenue, or call DElaware 1433. It need not necessarily be anyone interested in acting, Tandy pointed out, as there are many other activities in connection with play production that are just as valuable and just as much fun, such as the designing and construction of scenery or costumes, the handling of lights, props, tickets and ushering.

The group will start with one-act plays, according to Tandy, and later increase to three or four.

Oldest Toy

The doll is the oldest toy known and has been found in various forms among all nations and tribes from remote antiquity. In the British museum in London there is a collection of dolls, one of which is 4,000 years old, having been found in an Egyptian tomb. Dolls were also common in Greece and Rome. Recent scientific investigations seem to indicate that dolls were also used by some tribes in religious ceremonies.

Bronc-Busters Ride for Title

More than 200 of the world's best riders, ropers and bulldoggers will be out to win the official Rodeo Association's "Grand Champion Cowboy" title and part of the $1800 in prize money to be awarded at the San Mateo Fiesta and Rodeo, September 21 to 24, at Bay Meadows, according to Harry Rowell, famed rodeo producer.

Just returned from Ogden, Utah, where he produced a rodeo, Rowell revealed the purchase of bucking horses and bulls that will give the topnotch riders plenty of trouble. In all, there will be 30 wild brahma bulls, 85 bucking horses, 60 Black Angus cows and calves and 30 wild Mexican bulldogging steers, more than 200 head of the world's top rodeo livestock in all.

A new attraction of the rodeo this year will be Elmer Holcomb, internationally famed clown whose antics with mules, steers and horses are sure-fire features.

Another new act will be Harliss Harker and his "nearly human" sheep dogs which ride bicycles, scooters, walk tight wire and skip rope.

mours, pere and mere, worry over their offspring.

In the play, Mr. and Mrs. Gregory Seymour plan to produce the great American novel, but the stork comes flying low. They have to turn to pot-boilers to pay for the baby and hang out the white flag. But the stork can't understand signals and keeps on bringing them more babies, until they realize that, instead of the great American novel, they have produced the great American family.

Downright Americana, with all the stops open . . . that's "The Great American Family." The kids, the apricots, the glue pot, the model airplanes, the swiped bicycle, the circus calliope, the stairs that act as a chute for all that is youthful and exuberant, Mom and Pop straining between laughter and a few parental tears . . . this is the human and humerous story of Mr. and Mrs. America.

James Bell of the New York footlights and Carol Goodner of the New York and London stage appear as Mr. and Mrs. Gregory Seymour. There is an all-American cast of over 30 portraying this typical family, as it grows from babyhood to maturity.

A good bicycle rider is known by his observance of the rules of safety, according to the San Mateo county traffic safety committee, which has recently published a little code book for bicyclers called "Sammy Sprocket Says."

Here are a few of the things that Sammy Sprocket says: Obey all traffic signs and rules, always signal before making turns, walk across heavy traffic, ride single file—don't weave about, watch carefully at railroad crossings, keep out of car tracks and ruts, never "stunt" or race in traffic, avoid all "hitching"—it's dangerous, never carry passengers or drag children, carry parcels in racks or carriers, use extra caution on all sidewalks, get off the roadway to make repairs, wear light-colored clothing at night.

California Cities Enter Safety Contest

America's No. 1 urban traffic problem—pedestrian deaths and injuries—is being systematically attacked by a nation-wide array of cities enrolled in the pedestrian safety contest sponsored by the American Automobile association, it was reported today by the California State automobile association. More than 200 cities have already entered the contest.

The result of a recent A. A. A. survey disclosed that motor vehicle fatalities involving persons on foot have risen to approximately 75 per cent of all traffic deaths occurring in cities.

Cities entered in the contest will receive honor awards on the basis of improved pedestrian accident records and measures taken to promote pedestrian safety.

Chrysler Dealers Discuss "Superfinish"

At a meeting held in San Francisco recently, by James W. McAlister, Chrysler-Plymouth distributor for Northern California, an assembly of more than 400 university professors, students, corporation engineers, and Northern California Chrysler-Plymouth dealers, heard the mysteries of "Superfinish," newest Chrysler contribution to automobile manufacturing, explained by Robert T. Keller of the Chrysler corporation.

According to A. L. Timossi, Mission Auto company, Chrysler-Plymouth dealer here, who attended the meeting, "Superfinish" is a revolutionary new process for finishing metal surfaces that virtually eliminates metal-to-metal friction. It is claimed that its value to the automotive industry, as well as many other types of machine manufacture, can hardly be overestimated.

Metal surfaces finished under the new Superfinish process have a mirror-like quality, devoid of all the minute irregularities that contribute to wear. In fact, an entirely new measuring device, the "profilometer," which measures surface finishes in one-millionths of an inch rather than in thousandths, has been developed to record Superfinished surface smoothness.

"Superfinish," declared Keller, "gives an automobile engine a far longer life, quieter performance and a reduction of operation and upkeep costs. It also shortens substantially the former long 'breaking-in' period that owners of new cars have found so tedious. A Superfinished motor car engine will tend to give more miles per gallon on both gasoline and oil because the smoother surfaces reduce the frictional load placed on moving parts."

Mystery Club Meets Again

Daly City's mystery club, the Royal Hauntians of the High Court of the Royal Hauntians, resumed operations Thursday night, following their ghostly vacation, according to a letter received here this week.

According to the typed message, "the meeting in the Black Chapel was one of the most interesting yet held. Everyone had new plans and ideas . . . . and a suggestion for a semi-monthly outing to North Beach for an Italian dinner was accepted . . . .there were so many suggestions coming so fast that the new High Chief Hauntian had to call for order."

Following their meeting, the spooks enjoyed refreshments and hearing about one another's vacation, the letter continues, until almost 2:30 a. m., the longest meeting yet held in the Black Chapel by the Royal Hauntians.

The Perfect Omelet

No one has yet succeeded in putting on paper the true secret of the perfect omelet.

Christian Science Lesson-Sermon

"The Lord is my portion, saith my soul; therefore will I hope in him." These words from Lamentations comprise the Golden Text to be used Sunday, August 13, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The subject of the Lesson-Sermon will be "Soul." Included among the Scriptural selections will be: "O God, thou art my God; early will I seek thee: my soul thirsteth for thee, my flesh longeth for thee in a dry and thirsty land, where no water is; To see thy power and thy glory, so as I have seen thee in the sanctuary" (Ps. 63: 1, 2).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Because Soul is immortal, it does not exist in mortality. Soul must be incorporeal to be Spirit, for Spirit is not finite. Only by losing the false sense of Soul can we gain the eternal unfolding of Life as immortality brought to light" (p. 335).

New And Used Car Annual Sales Top Million Dollars

Used Car Event Is One Of New Features of Six Local Auto Agencies

There must be a reason for Daly City auto dealers getting more than a million dollars worth of new and used car business annually. There are several good reasons, foremost of which is personalized service. None of the auto agencies' six local service plants is so big that a car brought in for repairs or service is lost in the shuffle of speed and carelessness. Because the local dealer relies on repeat business, rather than volume, it is to his advantage to give good service on any car you purchase, new or used.

The second reason for steadily increasing activity here in car sales is trade-in value. Daly City dealers can give you a better trade-in deal on a new or used car than you can get anywhere. Even now, dealers are giving larger trade-in allowances here than at any time during the past year.

Reputation is the third reason why sales here are at a peak. All six dealers are noted for fair dealings with customers, and their persistence in living up to promises in every car deal. This policy has brought new and used car buyers back year after year.

In summing up all these factors, it is plain to see why automobile business here is good.

State Fair Sets Record

California's eighty-fifth annual State Fair, September 1-10, will present to the world at large a $7,500,000 institution, according to a release received from Sacramento today.

The Fair itself holds first place in the nation in attendance records. Secretary-Manager Robert Muckler points out that the twelve new buildings now under construction for 4-H clubs and Future Farmers of America will give it the largest youth division in the country.

Nearly $2,000,000, mostly supplied by the Federal government, has gone into improvements in the last two years. Since the Fair closed last September, $700,000 has been spent, a large portion of it to provide show quarters for young exhibitors of the State.

Three hundred Works Project Administration and state architect division employees are at work on the improvements. The twelve new buildings will be divided equally between the two youth groups. Each will have an administration building 64 by 160 feet and 28 feet high. A domed roof of a new type eliminates pillars or posts on the floors. An arcade 185 feet long connects the two buildings.

Night Owls Sponsor Dance

The Night Owls social club of Colma and South San Francisco are rapidly completing plans for their big dance, August 19, at Lovchen Gardens, Colma, according to officers of the club.

The interior of the hall is being transformed by kalsomine, carpentry and much hard work to resemble the interior of a night club on the big evening. The orchestra stand—which will be filled by those famous swingsters, the Indians of Rhythm, is to be equipped with extra rises, and even the ceiling is coming in for special attention.

The Night Owls and the Ko-Kets Klub will hold a joint banquet next Tuesday evening, following completion of the decorations to work up enthusiasm for the dance and discuss final details.

The Decadeers, Dawnbreakers, Ricky Roamerettes and other clubs are also cooperating with the Night Owls. The public is cordially invited to attend the dance, August 19, at Lovchen Gardens.

Tumbling Team Invites Beginners

Editor's note: one of the most interesting sport stories received in our office this week was written by the boys of a newly-formed boys' and girls' tum ling class which meets daily in the Jefferson Union high school gym under the expert tutelage of Albert Larin. The story reads as follows:

"Once again the Daly City Recreation department of the WPA has scored a hit with the younger generation. Under competent supervisors, the children have been learning to handle themselves through the ancient art of tumbling.

"Although there is a lack of boys at present in the sessions, held daily from 2:30 to 5 p. m., the girls have formed a tumbling team coached by Albert Larin and Miss B. Wadiker. They are now able to perform approximately 30 tumbling acts, besides many tricks in pyramid-building and hand balancing.

"The instructors are Robert Clark, Jack Van Anglan, and Albert Larin. The girls' team includes Beverly Wadiker, captain; Anna Domecus, Frances Oely, Pamella Yorkman, Ethel Eckett, Barbara Blecher, Dorothy Dawe, Marie Weelan, Doris Parodi, Pat Rowley, Lola Casentini, Roberta Clark, Mary De Negri, Jo Ann Matthews and Nancie Clark.

"All those who wish to participate may do so by attending any of the regular sessions. There will be classes for beginners and advanced students. No charge is made."

"CONFESSIONS OF A NAZI SPY" OPENS TOMORROW AT DALY CITY THEATRE

"Confessions of a Nazi Spy," starring Edward G. Robinson, has its first local showing tomorrow at the Daly City theatre. It is a sensational expose of the direct military and naval espionage of Nazi agents in the United States as brought out in the recent trials in New York, Los Angeles and the Panama Canal Zone. Leon G. Turrou, former G-Man, acted as technical advisor on the Warner Brothers production.

The cast includes, besides Robinson, Paul Lukas, Francis Lederer, Lya Lys, Dorothy Tree, Henry O'Neill, George Sanders, Henry Victor, Grace Stafford and hundreds of others.

Robinson plays the G-Man who breaks the spy ring and brings four of its members to trial and conviction. Lukas portrays the doctor who heads the ring; Lederer is the bungling Nazi informer; and Lya Lys is the exotic beauty who uses her feminine wiles to get information for the Nazis.

"Confessions of a Nazi Spy" goes beyond the mere expose of a small spy ring. It shows the open and flagrant campaign that Hitler supporters are waging in this country against the nation's democratic institutions. And it shows that the spy menace is still very great, and that for every spy brought to justice during the recent trials in New York, Los Angeles and the Panama Canal Zone, there are hundreds still operating at large. To quote Mr. Turrou, the recent spy trials "barely scratched the surface."

Companion feature on the new bill will be "Ex-Champ," starring Victor McLaglen.

Francis Ledered who is featured in "Confessions of a Nazi Spy," opening at the Daly City theatre tomorrow.

Indians' Pianist Plays at Fairmont

Another member of Dante P. Lembi's Indians of Rhythm skyrockets to popular acclaim this week. Miss Ruth Morris, pianist for the famed Jefferson Union high school dance band, will appear at San Francisco's swanky Fairmont hotel August 15-19, playing the accompaniments for Miss Gloria Nygard, Hollywood motion picture star. Miss Nygard will sing for the convention of Jobs' Daughters there.

Miss Morris will also accompany Miss Nygard, August 19, on Treasure Island. Miss Nygard has just completed a picture with Jackie Cooper.

A high senior at the local high school, the talented young pianist is the daughter of Mr. and Mrs. J. G. Morris, 186 Irvington street, and has appeared with the Indians of Rhythm numerous times in this locality.

The Vernazza Family, also members of the Indians of Rhythm, have recently completed a successful engagement at the Golden Gate theatre in San Francisco. George Shinazy, saxophone player for the band, is playing with the orchestra at Fetter's Hot Springs in Sonoma county.

V. Fenstermakers Escape Forest Fire

Mr. and Mrs. Victor Fenstermaker, 998 Hanover street, narrowly escaped death Sunday when a raging forest fire out of control swept down along a thirty-mile front to destroy the W. S. Poor ranch near Kelsey, California, where they were visiting.

Mr. and Mrs. Fenstermaker and Mr. and Mrs. Poor were forced to flee, leaving their possessions behind. All four escaped uninjured. The house, barns and grocery store were completely destroyed.

More than 2000 firefighters in the area between the North and South forks of the American river had brought the fire temporarily under control today.

The property destroyed was once a haunt of James Marshall, discoverer of gold in California. All of the wood-work in the house had been hand-turned by Marshall. The antique fireplace and the ancient cellar, built in 1851 with slate slabs, alone withstood the ravages of the flames.
